Persistence “More than one
person in a single day is able to

knock out a full course of vitamins and minerals,” claims Dr. Mercola. Without getting our hands on each food in one sitting, we can “get an infusion of nutrients” by drinking a quart of milk once a day. This way, our bodies will receive the necessary doses of vitamins, minerals, and essential nutrients, regardless of the foods we consume, as long as we make sure that the milk isn’t sour or the milk is not “skimmed” and that we drink it

in 4 ounces per sitting. Since 2006, I have been drinking 1 quart of full cream milk every day. It is by far the best source of nutrition, and it really does help us live longer. The benefits are numerous, but they include: Lowering serum cholesterol, serum triglycerides, and LDL Cholesterol Strengthening bones and muscles Improving our taste buds Improving digestion and enhancing our immune system Drinking milk

can create more of a favorable environment in our bodies, thus enabling us to feel better, remain healthy, and live longer. Next, let's look at how we can help you detoxify your body.

GOOD NEWS: You don't need to spend \$60 to \$100 at the gym or a gym membership to get in shape. You don't need to spend \$60 to \$100 at the gym or a gym membership to get in shape. You don't need to spend on fancy chemicals. You don't need to spend on pricey drugs

or medicines. You don't need to spend on fancy chemicals. You don't need to spend on pricey drugs or medicines. You don't need to drink expensive
