KeyMACRO is a small console utility that allows you to edit Microsoft's memory. It can be used to create a macro that will push a key or mouse click. The Microsoft keyboard and mouse can be found under the Settings->Accessibility and Devices. The install package does not contain the keymacro.txt file or the download. This program can be used standalone, so you do not have to use the included software to edit. Note: Some users have had issues running keymacro.msi under Wine, so you may have to edit the keymacro.txt file to make it work. You may need to get the specific version for your system, look at my comments below. If you have Windows 7 and are a creative type, may be interested in a new program that will actually put you in the mind of a musician. "musin" is a little application that can be used to play guitar chords, piano chords and even drum chords in real time. It uses the built in MIDI function of your PC (keyboard and mouse). And, for the price, it does a great job. The game is free to download and runs as an active program on your desktop. As a musician, I can't tell you how much I like to play guitar and piano as well as drum while working on my songs. It's a real pain to have to stop the program to play a note, or stop the song while I record a drum part. I finally found something that lets me keep going, and do it on my own time. I don't think I can do justice to the program with a description. So I'll let the screenshots do the talking. If you are interested, you can download musin at: How do you like your ice cream? Do you like it on the rocks or with a slice of banana? For years I've been waiting to get my hands on a new water-based windshield wiper. I'm a sucker for the slick motion, and I've always thought they looked great. Then a few years ago I heard about an alternative that I think might be better for the environment. The water-based wipers use a water pump that sucks in the water. The ice in the water creates a lot less pollution than the gasoline-based wiper. It took a long time, but water-based wipers have finally been released. I thought it would 1d6a3396d6
