Rich Decorations and a Wide Range of Content In addition to the characters that appear in stories, monsters, and other places, there are over 40 different items, including decorations that affect your character, weapons, and armor. • Create an Encouraging Storyline An in-game manual of over 300 pages contains story segments and scenes in which the actions of your character are reflected. • Unknowable World Adventure Feel Play is performed in a wide range of environments that are different from one another, and as you explore, you yourself discover hidden details about the world. • Active Time Battle* The recently added online element is a surprise system that allows you to witness or participate in battles through the microscope mode. Every day is a battle day, so let your dreams of becoming a legend rise. *Recommended: Battles in real-time may take some time for your computer and Internet connection to handle. Please bear in mind that this is a real-time system and there may be a lag when you play.

Rising of the Kinslayer

- After Storyline Rating A war that has been raging for 1000 years, the three most powerful realms: Earth, Sky, and Grasslands have been reunited in the Lands Between. Under the protection of the king of the realm, the lands thrive and peace and order are restored to their former glory. However, in the Steel Realm, war has become a way of life, and resentment toward the gentle land of the Elves is at its peak. In the heart of the Steel Realm, the king's younger brother, Grubb Levana, accompanies the king of this realm on a secret mission. But the encounter with Elves triggers an event from ancient times, and someone from the vast range of history that is within the Lands Between sheds light on the true treachery behind the war and reveals the identity of that traitor. From that point on, the peace in the Lands Between gradually dissolves as the twin factions of the Kinslayer and the grimmest of the grimsons approach their treacherous goal.
- Although Grubb doesn't know the fate that awaits him, he joins forces with a group of commoners and begins making preparations for battle in a devious manner. But when the Kins

[03/16/2015] Problem is the game has very little combat. You run around the game jumping from place to place and looking at things without a whole lot of fighting or anything going on. Only way to get treasure is for your character to pick it up. Was expecting more as there were a lot of negative reviews. [03/16/2015] This game is far too simple and features nothing to excite the player. [03/16/2015] A 1 vs 1 vs 1 game, and that's pretty much it. That's all the game has to offer. [03/14/2015] It's a fun game to just spend a few hours in. But to have a full 8-10 hour experience? Why bother. It's also not worth the money. [03/14/2015] It's a dumb game. There's no reason to come back to this game since I never once experienced a combat situation. [03/14/2015] Game has way too many bugs, and isn't very polished or bug free. The only thing that saves this game is the storyline, which really does make you care about the characters. [03/14/2015] I just couldn't get into this game. A few hours in it's just not worth it. [03/14/2015] What I wanted to see was Elden Ring RPG, but what I got was another low quality IAP-riddled action mobile game. [03/14/2015] You can spend a lot of time on this game and not get anything out of it. [03/14/2015] It's a boring game that I lost interest in halfway. [03/14/2015] If you play this game you will fall into a rut. [03/14/2015] If you like basic action games, you might like this game. [03/14/2015] The short story mode is just a play through, so that sucks. But the main story mode is terrible. The side quests are so short that there is not even any progression at all in the side quests. [03/14/2015] I'll try to be honest. It's a game that has some potential. But ultimately it's just a poorly written and developed game. bff6bb2d33
